Preface

Selected Financial Data consists of a series of 4 annual releases which are prepared to display comparable financial data for Maryland schools. Part I contains information about sources of funds, Part II displays expenditure information, Part III equates costs to the pupils who are being served, and Part IV is a time series for selected items from Parts I, II & III.

Copies of these releases are available upon request by contacting Mrs. Kathie Hiatt of Office of Management Information Systems on (301) 659-2664.

INTRODUCTION

Selected Financial Data is prepared annually from information contained in the Annual Financial Reports submitted by each of the 24 local education agencies (LEAs) in Maryland. These reports, authorized under the Public School Laws of Maryland, Section 2-205, Section 5-109 and Bylaw 12.02.01, dictate a uniform format for reporting LEA finances to the Maryland State Department of Education. A manual entitled the Financial Reporting Manual was developed to further define the reporting requirements as contained within the law. This manual is a comprehensive document containing account codes and definitions, financial reporting forms and miscellaneous other items which are vital for reporting conformity.

FINANCIAL REPORTING, IN BRIEF

LEAs are legal entities which exist to operate schools or contract for educational services. In Maryland, these school units are coterminous with the boundary of the political subdivision; i.e., the 23 county governments and the Baltimore City government. These school systems have no taxing powers and must compete with other county or city agencies for funds to provide educational services. Local funds for education are made as an appropriation for a specified purpose; and to assure that these pusposes are adhered to, separate funds exist to account for the monies. Maryland recognized 6 funds in addition to a special account for keeping track of fixed assets. Following are a list of the funds and a brief description of each:

(1) The Current Expense Fund contains all accounts for general, routine current operations. Maryland presently has 12 categories into which current expenses are reported - Administration, Instruction, Student Personnel Services, Health Services, Student Transportation, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Community Services, Special Education and Capital Outlay. Some of these categories are further divided into specific functions, but each of the categories requires some or all of the following object of expenditure detail: salaries and wages, contracted services, supplies and materials, other charges, replacement and additional equipment, and outgoing transfers. Subobject details are required for specific accounts.

(2) All transactions relating to major school construction or remodeling are accounted for in the School Construction Fund. Expenditures are accounted for as follows: purchase of sites, site improvements, buildings and building additions, remodeling, additional equipment, and other construction expenditures.

(3) The Debt Service Fund accounts for the systematic repayment of principal and interest on debt; and, although Maryland school systems do not have the authority to issue bonds for school construction, they may be responsible for handling repayment of debt.

(4) The Food Service Fund accounts for operations required to provide meals to students and staff in schools; i.e., operating kitchen equipment, preparing and serving food, cleaning and storing equipment, and delivery services.

(5) The Student Activities Fund is for the purpose of accounting for funds which are owned, operated, and managed by the student body under the guidance of the LEA staff.

(6) The Trust/Agency Fund accounts for assets held in trust by the LEA for some other agency.

HIGHLIGHTS FOR FY 1981

--- Due to the Maryland General Assembly decisions which impact annually upon the reporting requirements for the school systems, continuity in reporting becomes difficult. A new Special Education category became law in 1977; and, as a result, beginning with the 1981 school year, expenditures for educating students with special needs were removed from other instructional costs as historically reported. Details of these costs are now displayed in the releases which follow.

---Beginning in FY 1981, two categories which had existed in the Maryland financial reports were eliminated as categories and incorporated into other areas of reporting. Specifically, Student Body Activities was made a program area reportable in the category of Instruction, and Outgoing Transfers became an object of expenditure reportable in the appropriate category.

--- Another decision made by the Maryland General Assembly required the State to fully fund the Teachers' Retirement System. The enactment of this legislation resulted in what appears to be a large increase in the State cost of the system. Actually, however, the increase is due to the ability to allocate the total program cost to the individual school systems. Previously ommitted from all the data released by the Maryland State Department of Education was an amount of money designated as the Consumer Price Index adjustment as no method existed by which this money could be allocated back to the school systems. The CPI amounted to almost $35 million in FY 1980, but this money was not reported as a cost of the system.

DEFINITIONS

Administration refers to an expenditures category for reporting the general regulation, direction and control of the LEA. Activities in this category affect the LEA as a whole, not the administration of a single building or narrow phase of school activities. It generally refers to activities involving the formulation and execution of education or financial policy by the LEA.

Average Daily Attendance is computed by dividing the sum of the days present of all students in the school system by the total number of days that schools are in session in a given school year. When cost per pupil data are based on ADA, kindergarten students who attend for only one-half day are counted as one-half student. ADA so adjusted is referred to as equated ADA.

--- Due to the Maryland General Assembly decisions which impact annually upon the reporting requirements for the school systems,

--- Due the Maryland General Assembly decisions which impact annually upon the reporting requirements for the school systems, continuity in reporting becomes difficult. Beginning with the 1981 school year, expen

--- Due to the Maryland General Assembly decisions which impact annually upon the reporting requirements for the school systems, continuity in reporting becomes difficult. A new Special Education category became law in 1977; and,as a result, beginning with the 1981 school year, expenditures for educating students with special needs were removed from other instructional costs as historically reported. Details of these costs are now displayed in the releases which follow.

--- Beginning in FY 1981, two categories which had existed in the Maryland financial reports were eliminated as categories and incorporated into other areas of reporting. Specifically, Student Body Activities was made a program area reportable in the category of Instruction,;and Outgoing Transfers became an object of expenditure reportable in the appropriate category.

Average Number Belonging - In a given school year, average number belonging, or average daily membership as it is sometimes known, is computed by dividing the sum of the days present and absent of all pupils in the school system by the total number of days that the schools were in session. When cost per pupil data are based on ANB, kindergarten pupils are counted one-half when they attend school for only one-half day.

Assessed Property Valuation is the valuation of property as determined by the appropriate local government agency for taxation purposes.

Bonded Debt is the part of the local unit debt which is covered by outstanding bonds of the unit.

Capital Outlay is an expenditure which results in the acquisition of fixed assets or additions to fixed assets.

Community Services are services, other than those for public schools and adult education, which are provided by the school or local unit for the community as a whole or some segment of the community, e.g., community recreation programs, civic activities, public libraries, programs of custody, care of children, etc.

Debt Service refers to expenditures for the retirement of debt and expenditures for interest on debt, except principal and interest of current loans.

Fixed Assets are land, building, machinery, furniture, and other equipment which the local unit intends to hold or continue in use over a long period.

Food Services are activities involved with the food service program of the school or local unit, including the preparation of and serving of regular and incidental meals, lunches, or snacks in connection with school activities, and the delivery of food.

Fund is an independent accounting entity with its own assets, liabilities, and fund balances, generally established as an account for financing specific activities of an agency's operations.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location; or it involves other learning situations, such as co-curricular activities.

Local Education Agency (LEA) is the basic administrative unit which exists primarily to operate schools. In Maryland, the LEAs coincide with the political subdivision, i.e., the 23 counties and Baltimore City.

Maintenance of Plant refers to activities which are concerned with keeping the grounds, buildings, and equipment at their original condition of completeness or efficiency, either through repairs or by replacements of property.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture, caring for grounds, operating telephone switchboards, and other activities which are repeated regularly

Student Transportation consists of activities involved in the conveyance of pupils to and from school activities as provided by State law, including trips between home and school, or trips to school activities.

Non-Revenue refers to amounts received which either incur a future obligation or change the form of an asset from real and personal property to cash, thereby decreasing the net amount and value of real and personal school property.

Revenue means an addition to an asset which does not increase any liability, does not represent the recovery of an expenditure, does not represent the cancellation of a decrease in assets, and does not represent contributions of fund capital in Food Service and Student Body Activity funds.

Student Personnel Services are activities such as attendance services,social work services or student account service which are designed to improve the students' attendance at school and prevent or solve student problems at home, the school, or in the community.

Special Education consists of activities designed for students who through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Local Appropriation-money received out of funds set aside by the county commissioners or city council for a special purpose, such as education.

Federal Funds-funds received from the federal government, either directly or indirectly (as it the case with most monies which are given to the Maryland State Department of Education and distributed to the LEAs' by any of several method).

---

*The apparent disproportionately large increase in cost of Teachers' Retirement is due to a Maryland General Assembly decision requiring full state funding of Retirement System and subsequent enchancements to cost identification.

Preface

Selected Financial Data consists of a series of 4 annual releases which are prepared to display comparable financial data for Maryland schools. Part I contains information about sources of funds, Part II displays expenditure information, Part III equates costs to the pupils who are being served, and Part IV is a time series for selected items from Parts I, II & III.

Copies of these releases are available upon request by contacting Mrs. Kathie Hiatt of Office of Management Information Systems on (301) 659-2664.

INTRODUCTION

This release is the third in a series of 4 releases on financial data for the 24 school systems in Maryland. Part I of Selected Financial Data contains details of the sources of revenue from which the LEAs receive funds and also some indications of the districts' wealth and the relationship between this wealth and the amount spent for education. Part II displays expenditure information according to the categories defined by the Public Schools Laws of Maryland. This release, Part III, relates expenditures to the pupils who are benefiting from these outlays in addition to showing the percentage of total dollars spent for each category of expenditures. Part IV is a time series on selected items reported in Parts I, II & III.

Several of the tables which were previously contained in Part III have been omitted from this years release. We will be working to complete these tables and you may request copies by contacting Mrs. Kathie Hiatt on (301) 659-2664.

The materials presented in Selected Financial Data are designed to provide the public at large with good, comparable, financial information about Maryland Public Schools. If you have any needs for particular data which we are not publishing, please feel to contact Mrs. Hiatt so that we are made aware of the public needs for financial data.

SELECTED FINANCIAL DATA - MARYLAND PUBLIC SCHOOLS: 1980-81

PART III

PAGE TITLE

1 Preface

2 Introduction

TITLE

1 Cost per Pupil Belonging for Current Expenses, Capital Outlay, and Debt Service: Prek.-12: Maryland Public Schools: 1980-81

2 Cost per Pupil Belonging for Current Expenses: Prek.-12: Maryland Public Schools: 1980-81

3 Cost per Pupil Belonging for Current Expenses: Maryland Public Schools: 1980-81

4 Cost per Pupil Attending for Current Expenses: Maryland Public Schools: 1980-81

5 Cost per Pupil for Tuition Bylaw for 1981 State Aid Purposes: Maryland Public Schools: 1980-81

6 Cost per Pupil Belonging for Materials of Instruction, Textbooks and Library Books: Prek.-12: Maryland Public Schools: 1978-79 - 1980-81

7 Percent Distribution of Current Expenses: Maryland Public Schools: Prek.-12: 1980-81

8 Percent Distribution of Day School Current Expenses: Prek.-12: Maryland Public Schools: 1980-81

FOREWORD

The statistics included in this report were derived from an automated data system which is maintained by the Maryland State Department of Education. The information is contained in Certificated/Professional Staff Reports supplied by the counties of the State and Baltimore City. Through their efforts and cooperation in submitting accurate data, these statistical tables have been made possible.

As the table titles indicate, only school level professional personnel are included; administrators in the schools are included, but those in central offices are excluded. New staff are those who are not employed in the public school system of the same local unit at the time of the previous report.

For the most part, the reports pertain to the school year 1981-82. The personnel included in the statistics are those who were employed September, 1981; however, new staff may have been hired any time after October 1, 1980.

FOREWORD

The statistics included in this report were derived from an automated data system which is maintained by the Maryland State Department of Education. The information is contained in Certificated/Professional Staff Reports supplied by the counties of the State and Baltimore City. Through their efforts and cooperation in submitting accurate data, these statistical tables have been made possible.

As the table titles indicate, only school level professional personnel are included; administrators in the school are included, but those in central offices are excluded. New staff are those who were not employed in the public school system of the same local unit at the time of the previous report.

For the most part, the reports pertain to the school year 1981-82. The personnel included in the statistics are those who were employed September, 1981; however, new staff may have been hired any time after October 1, 1980. Separations are people who terminated their employment with a local unit between October 1, 1980 and September 30, 1981. In calculating the percent of separations, the base used is the total staff minus the new staff plus the separations. Personnel who left and returned to the same local unit during the year are not included as separations.

Transfers between local units in tables 1 through 7 are determined by causes reported by the unit from which they left; transfers reflected in the new staff tables 8 through 16 are those reported by the local units to which the individuals transferred. (In other words, often people do not tell their present employers they are going to another local unit, but they must tell the new local units their past locations so their employment records will be accurate).
